

Hyperlink Creation

This document will cover how to add a hyperlink for your OSP School Store that you can link to a non-Edlio school website. For linking the OSP School Store to your Edlio school website, please contact your CSS or submit a support case in the admin section.

Why should I have a hyperlink to the store on my website?

Having a hyperlink on the local school website will increase awareness of the online payment option and provide direct access to it for parents.

How do I add a hyperlink?

1. Open your web browser and navigate to your OSP School Store or navigate to www.osmsinc.com/find-my-school/ to find your specific OSP School Store.
2. Hover over your appropriate school tab.
3. Go through the list of schools and choose your school. The hyperlink directed to your school will be populated in your web browser address bar.

osp.osmsinc.com/SunsetCounty/BVModules/CategoryTemplates/Detailed%20List%20with%20Properties/Category.aspx?categoryid=ZY986

Example URL

4. Copy the contents of your web browser address bar and paste it into the following code

`Online School Payments`

5. Copy and paste the above code into your website to establish the hyperlink.
